

Sylvans Veo Sports Camera Policy

Sylvans have purchased a Veo Sports Camera. This will enable the Club to record its matches and training sessions and analyse them for training purposes.

The matches will be recorded for future training purposes only for use by the Sylvans coaches. There will be no live streaming.

The matches recorded will be those involving the senior teams only. As this will also include some U18 players, Sylvans Welfare Officer will contact the Welfare Officer of all other Clubs on the Island before any filming takes place to ensure that there are no players involved in their senior teams who should not be recorded. If there are any such players, then matches against that particular club will not be filmed. The Welfare Officer is responsible for informing coaches where matches may not be filmed. The position will be checked with other clubs at the start of each season. The clubs will be asked to notify Sylvans Welfare Officer if the position changes during the season.

Sylvans registration form gives consent for recordings for training purposes. Sylvans have not been informed by any of the U18 parents whose child is eligible to play senior football that they may not be recorded. If permission is not given for any player then any matches that player participates in will not be filmed. The Welfare Officer is responsible for informing the coach which players may not be filmed. The position will be checked at the start of each season and monitored for any changes during the season.

The recorded footage will be kept for up to 1 year and then will be deleted.

Sylvans will put up signs at the pitch side to inform players and spectators that the match is being recorded. This is the responsibility of the Sylvans coach. If Sylvans wish to film at away matches then they will first ask the permission of the home coach and then put up signs at pitch side. Again this is the responsibility of the coach.

Sylvans will also inform the referees/ assistants that the match is being recorded. This is the responsibility of the coach.

Any questions or concerns about this policy or the use of the Veo system should be referred to the Welfare Officer
